

Conference Schedule continued

Thursday, October 25, 2007 continued

2:15 p.m. - 3:30 p.m.

Khorassan Ballroom

CONCURRENT SESSIONS continued

Glen Beckstead, ASPE, MHTN Architects, Inc.; **Bruce M. Haxton**, AIA, LEED AP, Senior Project Manager, Design Architect, MHTN Architects, Inc.

LEED® Cost Analysis for Science Parks and Research Facilities

Sustainable design elements include financial considerations, and the presentors will outline their Conceptual Cost Estimating System for LEED® science park and laboratory projects. This system forms a basis for understanding and controlling cost on LEED® projects. MHTN will discuss the design process and EarlyEco© software, designed for conceptual estimating.

4:30 p.m. - 7:45 p.m.

Group bus transportation will depart from the Lindell Street Hotel Entrance at 4:30 p.m. Return: approximately 7:30 p.m.

CORTEX Tour Flight City Reception

Sponsored by Austin AECOM

CORTEX Presentations by: **Barbara Featherston**, Executive Director, CORTEX; **Marcia B. Mellitz**, President, Chief Executive Officer, Center for Emerging Technologies

Flight City, at Missouri Historical Society Museum inside gorgeous Forest Park, is a thrilling and comprehensive exploration of the history of flight in St. Louis. It evokes the past while challenging you to imagine the future.

The Triple Bottom Line: Sustainable Growth Strategies that Produce Financial, Environmental, and Social Viability for Companies

Bob Willard, Author

New market forces are driving corporations and researchers to pay more attention to sustainability-related challenges. Bob Willard repositions smart sustainability strategies as a means to achieving existing corporate objectives. Sustainability planning can drive new bottom-line opportunities, avoid impending risks, and be a catalyst for business transformation.

Site Selection: What Do Companies Value?

Attracting capital investment: what distinguishes one park from others? Site Selection Magazine Editor Mark Arend will lead the discussion combining varying viewpoints: from a facility investor, a corporate asset manager, and a leading life science facility site selector.

Lindell CD

Punit K. Jain, Associate Vice President, LEED® Cannon Design

Bridging the Gap: Academia and Industry Working Together to Bring Research to Reality

Universities across the U.S. are turning challenges into opportunities by focusing on translational research programs. Universities are setting up clinical trial suites within research facilities on the campus, creating alliances with industry to establish laboratories within university research buildings, or establishing incubator facilities on research parks jointly occupied by academia and industry.

11:15 a.m. 12:00 p.m.
Khorassan Ballroom

AURP Town Hall and 2007 Annual Business Meeting
