## **PART B: Baccalaureate Degree Standards**

*The baccalaureate degree standards have three series:*

**7.00 series** *addresses foundation understandings (general education)*

**8.00 series** *sets forth the professional competencies*

**9.00 series** *provides opportunity for the academic unit to offer options that are accredited*

The baccalaureate program of an institution must include coursework to meet standard 7.00 and all of the standards in the 8.00 series. The 9.00 series is at the discretion of the academic unit; it may choose to accredit one or more options, or none. Inasmuch as the option standards build upon the 7.00 and 8.00 series, each option includes additional standards both for foundation understandings (designated 7A, 7B, 7C, 7D) and for professional competencies (9A, 9B, 9C, 9D).

The standards specify levels of competence:

Level one: knowledge, basic learnings

Level two: understandings, with respect to professional performance

Level three: abilities, competence of application, of "doing"

### **7.00 FOUNDATION UNDERSTANDINGS**

The institution must be in compliance with the regional accrediting body's general/liberal education requirements. As evidence of compliance, the program's self-study must state the name of the regional accrediting body, the date of the institution's last review by that body, and an explanation of the institution's general/liberal education requirements. For foundation understandings specific to each option, see the 7A, 7B, 7C, and 7D standards.
