

Single Window Data Harmonization in Thailand

Ministry of Information and Communication Technology

National Economic and Social Development Board

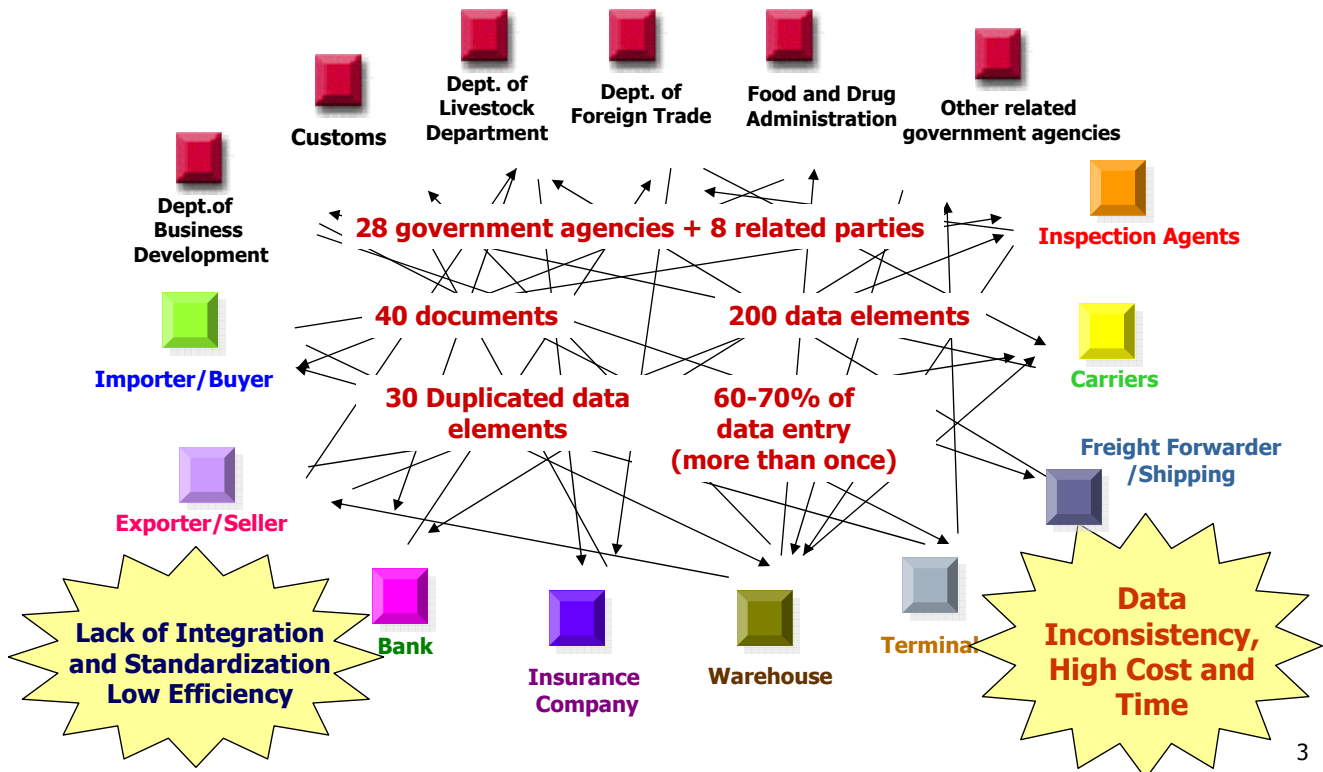

Institute for IT Innovation, Kasetsart University
Thailand

EDICOM 2008
Textile Center, Seoul
16 October 2008

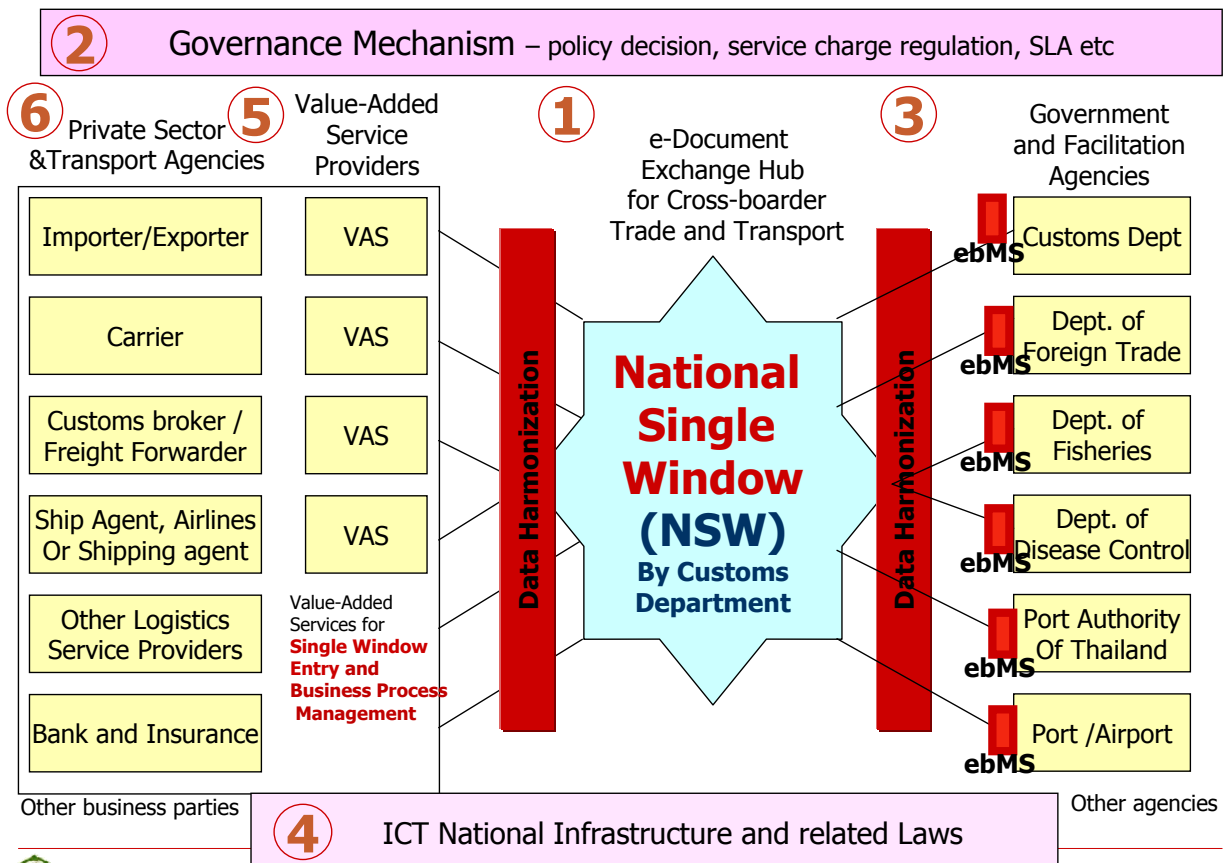

Outline

- Needs and Requirements for Data Harmonization
- Scope of Data Harmonization in Thailand
- Step-by-Step Guide for Data Harmonization
 - Example – Exportation of Rice
- Lessons Learnt & Recommendations

Needs and Requirements of Data Harmonization Project

Thailand National Single Window Framework

Importance of Data Harmonization

Benefits

- Common standards for Import, Export and Logistics Information.
- Decrease data redundancy.
- Facilitate information exchange between Government Agencies and Traders.
- Enhance competency for international electronic information exchange.
- Data Harmonization is necessary for implementing NSW Exchange and Single Window Entry

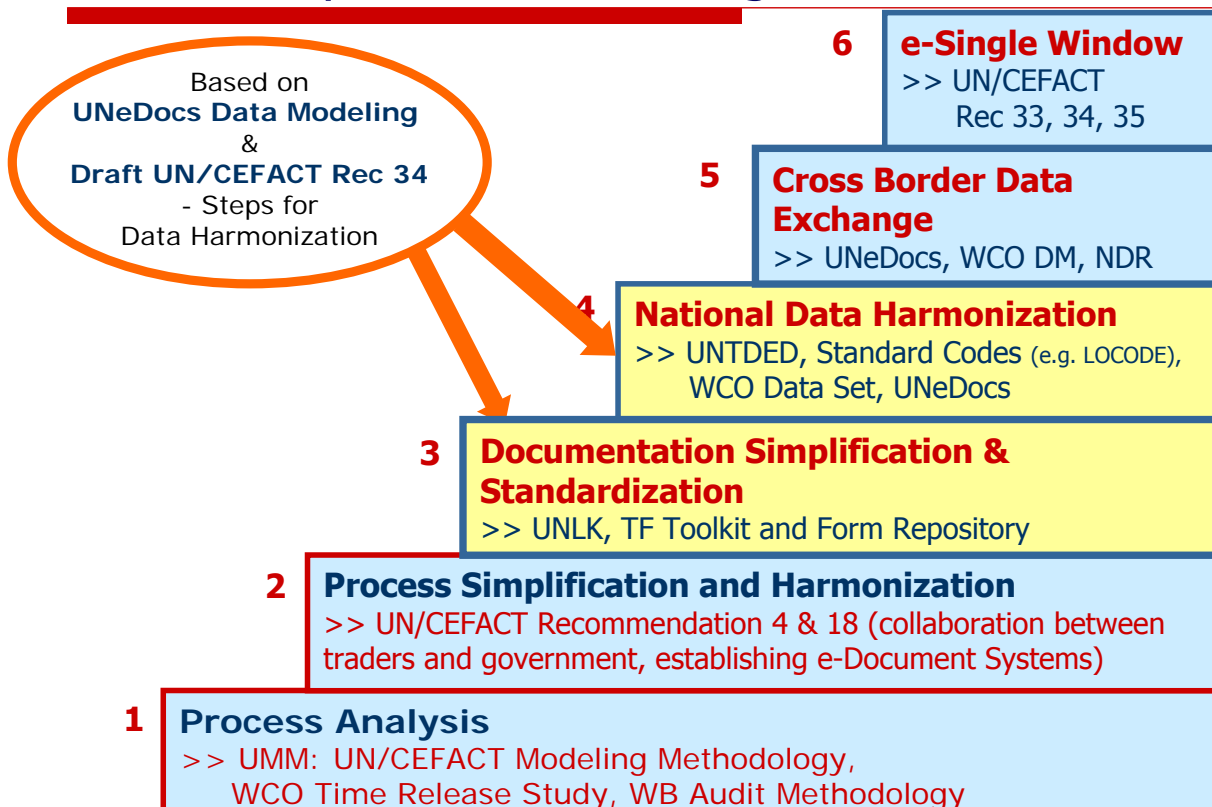

Outline

- Needs and Requirements for Data Harmonization
- Scope of Data Harmonization in Thailand
- Step-by-Step Guide for Data Harmonization
 - Example – Exportation of Rice
- Conclusion

Step by Step Guide towards Paperless Trade Single Window

Thailand's Data Harmonization Project based on UNeDocs Data Model

- The exercise to **capture, define, analyze, reconcile** (and propose for its adoption & implementation)
 - 1. A set of common data elements (names & meanings),** called, ***National Standardized Data Set (SDS)***
 - 2. *Its Data Models (Structures)***
 - 3. *e-Documents Formats*** (e.g. in XML Schema)all documents required by
 - Royal Thai Customs
 - Other Government Agencies
 - Transport providers
 - Trading Partners
 - Banks (for payment of related tax, services, ..)
 - and Insurance-related agencies (for cargo insurance)

Such that **National Single Window** Facilities can enable services where information is submitted once and used many times between many **different ICT platforms of those organizations.**

Data Harmonization Project

Participating Government Agencies

- ❑ **Referenced Standards** : WCO Data Set, UNTDED, UNEDocs
- ❑ **Deliverables**
 - Thailand's Standardized Data Set
 - Data Model and XML Schema for Request Forms, Permits and Licenses
 - Thailand XML Naming and Design Rules
- ❑ **Key Outcome**

Description	Result
❑ Number of involved agencies	20
❑ Number of paper forms	186
❑ Number of data elements collected	6,671
❑ Number of common data elements	252

1	Department of Agriculture
2	Department of Energy Business
3	Department of Primary Industries and Mines
4	Industrial Estate Authority of Thailand
5	Royal Forest Department
6	Department of Civil Aviation
7	National Park, Wildlife and Plant Conservation Department
8	Department of Livestock Development
9	Department of Fisheries
10	Department of Mineral Fuels
11	Department of Industrial Works
12	Department for Thriving Economy, Better Society and Improved Environment
13	Department of Foreign Trade
14	The Board of Investment of Thailand
15	Food and Drug Administration
16	Office of atoms for peace
17	Thai Industrial standards institute
18	The Thai Chamber of Commerce
19	Board of Trade of Thailand
20	Office of the Rubber Replanting Aid Fund

Commissioned by MICT

Ministry of Information and Communication Technology

Outline

- ❑ Needs and Requirements for Data Harmonization
- ❑ Scope of Data Harmonization in Thailand
- ❑ **Step-by-Step Guide for Data Harmonization**
 - Example – Exportation of Rice
- ❑ Conclusion

Ministry of Information and Communication Technology

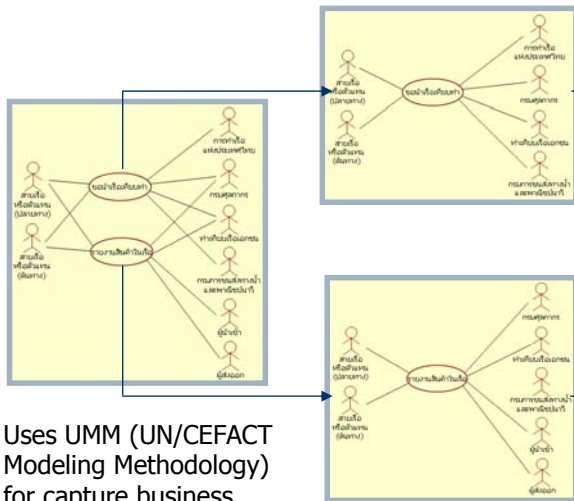

10

1) To Collect Documents, Forms and Requests from Business Processes

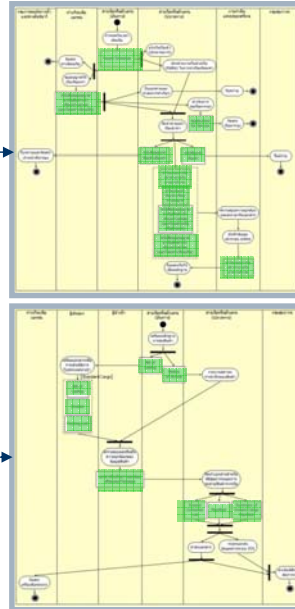

Business Requirement View: Activity Diagram

Business Domain View: Use Case Diagram

Uses UMM (UN/CEFACT Modeling Methodology) for capture business process and documents

1. Vessel Schedule
2. Form for Vessel Berthing at Bangkok port
3. Application for Service
4. General Declaration
5. หนังสือแจ้งเรือเข้า
6. Application for Vessel Entering the Port Area
7. คำร้องขอเข้าเรือเข้าเทียบท่าอนุญาต
8. Bill of Lading
9. Notice of Arrival
10. Invoice
11. Packing List
12. Inward Container List
13. Manifest
14. Summary of Inward Cargo Manifest

2) To Understand the Objective and Meaning of the Documents and Data Items and Provide Each Data Item a Definition

Document Name: Inward Container List

Trade Data Element Directory (TDED)

- **Group 1:** Documentation references (0001-1699)
- **Group 2:** Dates, times, periods of time (2000-2799)
- **Group 3:** Parties, address, places, countries (3000-3799)
-
- **Group 9:** Other data elements (Custom, etc.) (9000-9799)

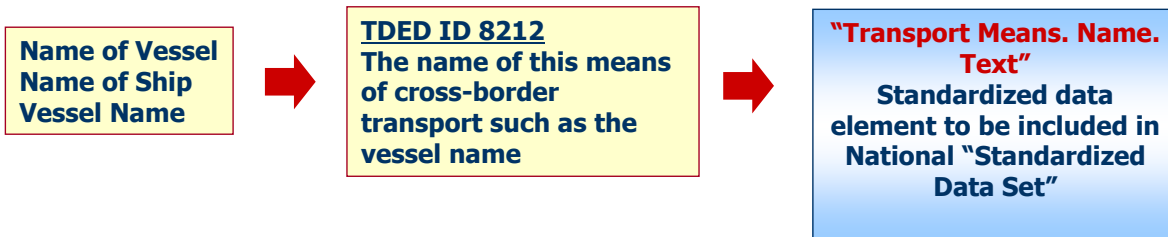

Data Element Name	Data Element Source	TDED ID	Definition
Carrier	Inward Container List	3036	The party providing the transport of this cross-border consignment of goods between named points as stipulated in the transport contract by the party
Carrier's Agent	Inward Container List	3036	The party authorized to act for, or on behalf of, the carrier as stipulated in the transport contract by the party ordering the transportation of this cross-border consignment of goods.
Address	Inward Container List		A specified address for this referenced party.
Inward Container List for	Inward Container List	8212	The name of this means of cross-border transport such as the vessel name.
Voy	Inward Container List	8213	A unique identifier of this means of cross-border transport such as the International Maritime Organization number of a vessel
เที่ยววันที่	Inward Container List	2193	The scheduled date and optionally time of an occurrence of this event.
พิธีการ	Inward Container List		
เครื่องหน่วง/เลขหมาย	Inward Container List	8260	A unique number, mark or name which identifies this cross-border related piece of transport equipment
Item	Inward Container List	1052	A unique identifier of a specific item in this cross-border document.
Type	Inward Container List	8053	Code specifying a type of equipment.
Size	Inward Container List	8155	Code specifying the characteristics, i.e. size and type of a piece of transport equipment
Consignee (ตัวแทนเรือ)	Inward Container List	3036	The party authorized to act for, or on behalf of, the carrier as stipulated in the transport contract by the party ordering the transportation of this cross-border consignment of goods.
Gross Weight	Inward Container List	6294	Weight (mass) of transport equipment, such as container or similar unit load device, with goods, including packing and carrier's equipment.
Status	Inward Container List	8249	The textual description of a cross-border instruction or a set of cross-border instructions.
หมายเหตุ	Inward Container List	4014	Textual information relating to a cross-border piece of transport equipment.

3) To Reduce Data Items of Different Names but have Similar Meanings or are Unnecessary

Data Element Name	Data Element Source	TDED ID	Definition	Documents Owner
Name of Vessel	Form for Vessel Berthing at Bangkok port	8212	The name of this means of cross-border transport such as the vessel name	PAT
Name of Vessel	Application for Vessel Entering The port area	8212	The name of this means of cross-border transport such as the vessel name	PAT
Name of Ship	General Declaration	8212	The name of this means of cross-border transport such as the vessel name	Marine Department
Vessel Name	Vessel/Flight Schedule Message	8212	The name of this means of cross-border transport such as the vessel name	Customs

4) Data Model Created based on UN/EDOCs Data Modeling >> Semantic Interoperability

Data Element Name	Data Element Source	TDED ID	Definition	CCTS Dictionary Entry Name (ASBIE)	CCTS Dictionary Entry Name (BBIE)
Carrier	Inward Container List	3036	The party providing the transport of this cross-border consignment of goods between named points as stipulated in the transport contract by the party ordering transport.	Cross-Border_Consignment Carrier, Referenced_Party	Referenced_Party Name, Text
Carrier's Agent	Inward Container List	3036	The party authorized to act for, or on behalf of, the carrier as stipulated in the transport contract by the party ordering the transportation of this cross-border consignment of goods.	Cross-Border_Consignment Carrier Agent, Referenced_Party	Referenced_Party Name, Text
Address	Inward Container List		A specified address for this referenced party.	Referenced_Party.Specified.Cross-Border_Address	
Inward Container List for	Inward Container List	8212	The name of this means of cross-border transport such as the vessel name		Transport Means, Identifier, Text
Voy	Inward Container List	8213	A unique identifier of this means of cross-border transport such as the International Maritime Organization number of a vessel		Cross-Border_Transport Means, Identification, Identifier
วันที่	Inward Container List	2193	The scheduled date and optionally time of an occurrence of this event.	Cross-Border_Transport Means, Arrival, Cross-Border_Event	Cross-Border_Event, Estimated_Occurrence, Date Time
หมายเลข/หมายเลข	Inward Container List	8280	A unique number, mark or name which identifies this cross-border related piece of transport equipment	Generic Container, Cross-Border_Transport Equipment, Cross-Border_Transport Equipment	Cross-Border_Transport Equipment, Identification, Identifier
Item	Inward Container List	1052	A unique identifier of a specific item in this cross-border document.	Cross-Border_Consignment, Transport Contract, Cross-Border_Document	Cross-Border_Document, Item Identification, Identifier
Type	Inward Container List	8053	Code specifying a type of equipment.	Generic Container, Cross-Border_Transport Equipment, Cross-Border_Transport Equipment	Transport Equipment, Category Code
Size	Inward Container List	8165	Code specifying the characteristics, i.e. size and type of a piece of transport equipment.	Generic Container, Cross-Border_Transport Equipment, Cross-Border_Transport Equipment	Cross-Border_Transport Equipment, Characteristic, Code
Consignee (ผู้รับมอบ)	Inward Container List	3036	The party authorized to act for, or on behalf of, the carrier as stipulated in the transport contract by the party ordering the transportation of this cross-border consignment of goods.	Cross-Border_Consignment Carrier Agent, Referenced_Party	Referenced_Party Name, Text
Gross Weight	Inward Container List	8294	Weight (mass) of transport equipment, such as container or similar unit load device, with goods, including packing and carrier's equipment.	Generic Container, Cross-Border_Transport Equipment, Cross-Border_Transport Equipment	Cross-Border_Transport Equipment, Gross Weight, Measure
Status	Inward Container List	8249	The textual description of a cross-border instruction or a set of cross-border instructions.	Cross-Border_Transport Equipment, Handling, Cross-Border_Instructions	Cross-Border_Instructions, Description, Text
หมายเลข	Inward Container List	4014	Textual information relating to a cross-border piece of transport equipment.	Generic Container, Cross-Border_Transport Equipment, Cross-Border_Transport Equipment	Cross-Border_Transport Equipment, Information, Text

Mapping agreed data elements with UN/CEFACT Core Component based cross border reference data model

4) Data Model Created based on UNeDocs (Continued)

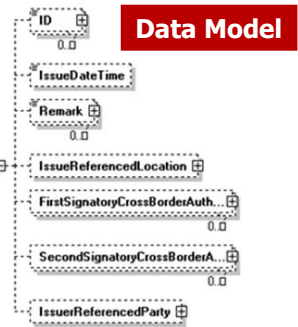

>> Data Models and XML Schema are generated

- C: Cross-Border_Consignment, Consignee, Referenced_Party

Outline

- ❑ Needs and Requirements for Data Harmonization
- ❑ Scope of Data Harmonization in Thailand
- ❑ Step-by-Step Guide for Data Harmonization
 - Example – Exportation of Rice
- ❑ Conclusion

Example – Exchanged Documents

Rice Quality Certificate By The Thai Chamber of Commerce

Permit for the export of rice by Department of Foreign Trade

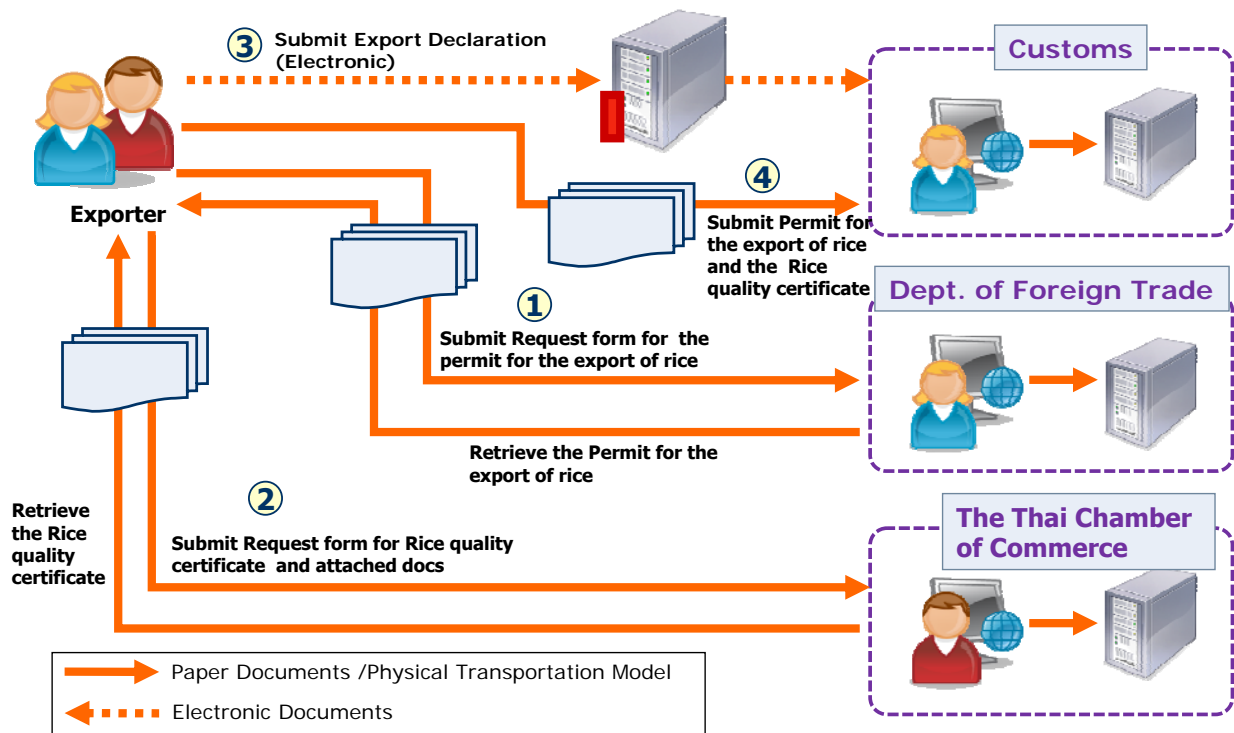

Example – Defining data element names and definitions for 2 documents by comparing each data element with TDED

2 documents about exportation of rice

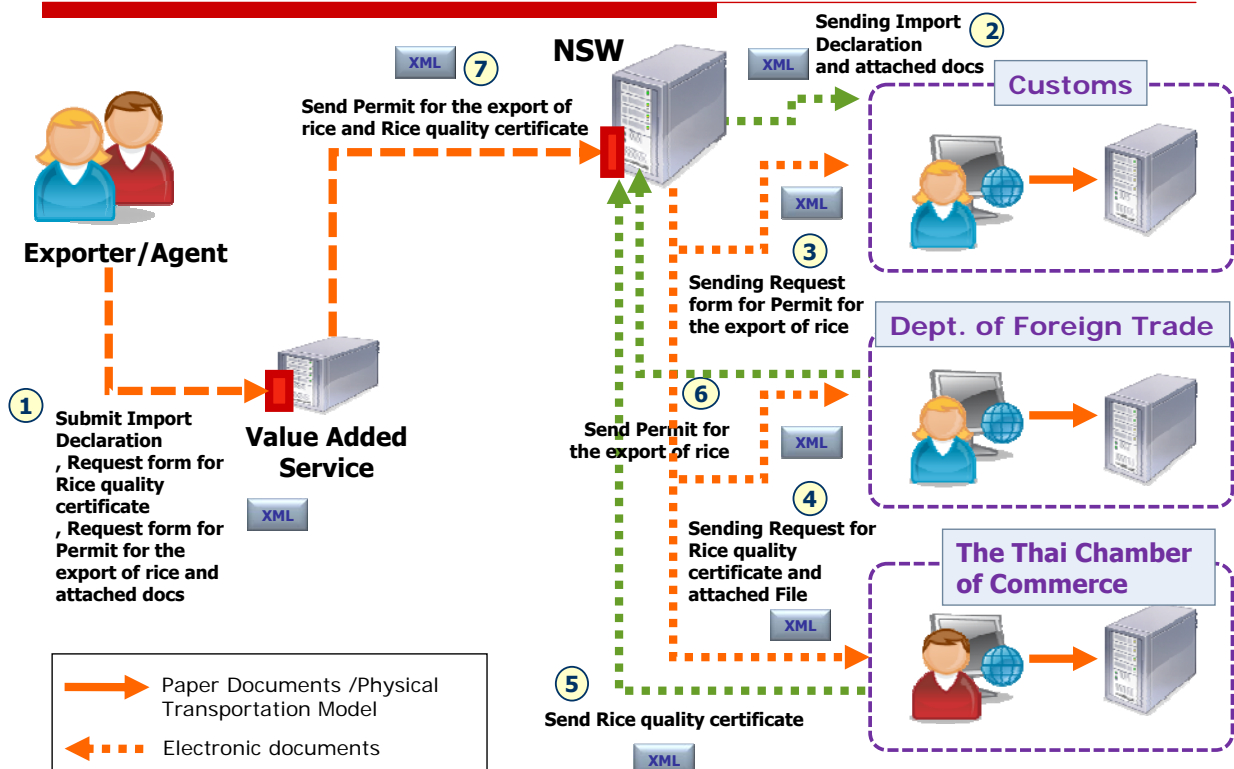

Permit for the export of rice	Rice Quality Certificate	Data Element Name	Definition
weight (kg.)	Net Weight (kg.)	Net Weight (item)	[TDED 6020] The measure of the net weight (mass) of this cross-border trade line item, excluding all packaging.
Unit Price	Price	Unit Price (item)	[TDED 5110] Price per unit of quantity on which an article item amount is calculated.
Name of transport	Ship's name	Name of Transport	[TDED 8212] Name of a specific means of transport such as the vessel name

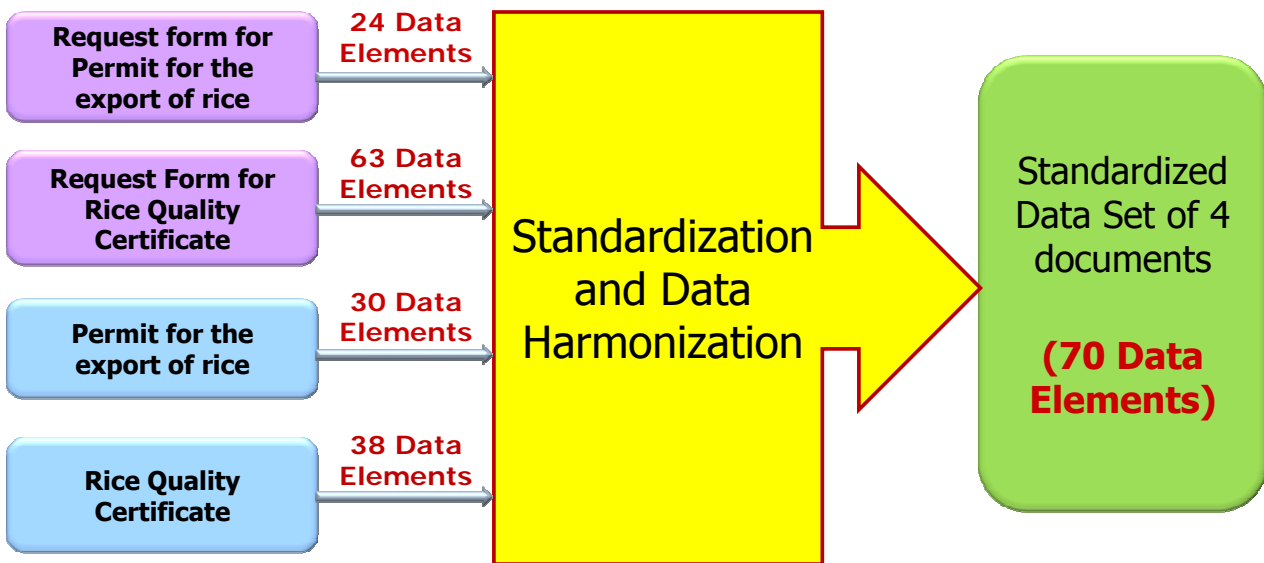

Example – Existing Process for Exportation of Rice

Example – New Process for Exportation of Rice

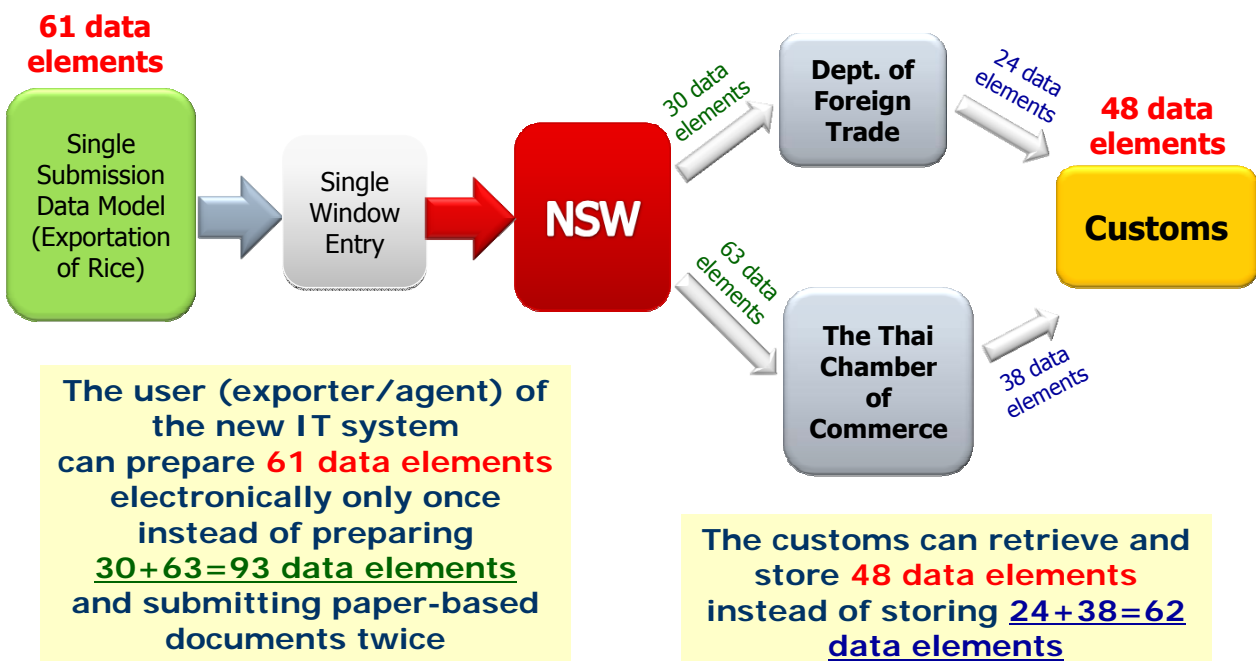

Example - Data Harmonization of 4 documents

Standardization and Data Harmonization can reduce the data elements from $24+63+30+38=155$ data elements from 4 documents to **70 data elements** for a standardized data set

Example - Data Harmonization of 4 documents

Outline

- Needs and Requirements for Data Harmonization
- Scope of Data Harmonization in Thailand
- Step-by-Step Guide for Data Harmonization
 - Example – Exportation of Rice
- Conclusion

Thailand DH Project - Results and Next Steps

DH Phase 1 (2007) – Data Harmonization of documents needed for import /export procedures through 4 modes of **transportation** (trains, trucks, ships and airplanes)*

- 58 documents - 1,346 data elements are simplified & harmonized
- Results -> 212 data elements (core components)

Phase 2 (2008) – other documents required by government agencies, logistics providers, and business** (including permits, licenses, etc.)

- **186 documents**
- Total Data elements = **6,671**
- No. of harmonized data elements reduced to = **252 data elements**

Adoption & Implementation (2008-2009)

- Development of e-Documents Systems in 12 government agencies

* commissioned by Ministry of Transport

** commissioned by MICT with collaboration with Customs Dept

Conclusion

- *Data Harmonization* among documents /data requirements of all import /export-related procedures (government agencies, business and logistics-related providers) is a very important exercise to *enable data interoperability*, thereby realizing the Single Window Paperless Trade Development.
 - *UNeDocs data model & WCO Data Model* are good candidates to provide *a way to harmonize* our data requirements at the economy level as well as at *regional levels*,
 - e.g. harmonizing the work of National Single Windows, ASEAN SW, and APEC SW Initiatives
(*complying with UNeDocs, Core Components Library, etc.*)

- *Implementation Plan & Resources must be secured.*

Thank you for your kind attention
