

SEMINAR ON UNDERSTANDING & IMPLEMENTING APEC EE MRA – SINGAPUR

2009, MAY

**Asia – Pacific
Economic Cooperation**

MACHU PICCHU - PERU

Republic of Peru

REGULATORY REGIMEN - PERU ELECTRIC PRODUCTS

ELECTRIC PRODUCTS:

- Electric wires and Cables
- Plugs and Socket-outlets
- Circuit breakers, Switches
- Electrical appliances
- Others

- Characteristic of the product
- Electric installation

Regulations

- Technical Regulations

- Electrical Code
- National Standards

REGULATION OF THE ELECTRIC PRODUCTS

GOVERNMENT INSTITUTIONS

**Technical
Regulations**

- **MINISTRY OF PRODUCTION**
(Responsible)

Electrical Code

- **MINISTRY OF ENERGY AND MINES**
Electricity General Directorate

NATIONAL STANDARD BODY

**Peruvian
Standards**

TECHNICAL REGULATIONS

PERU

Ministry
of Production

- To promote the Standardization and implementation of Standards among the manufacturing companies, in order to improve their competitiveness.
- To make, and approve the Technical Regulation in the manufacturing sector and to supervise its application.
- To evaluate and register Conformity Assessment Bodies in order to ensure comply with Technical Regulation.

Ministry of Economy and Finance is the one taken charge of promulgating the Technical Regulation.

Technical Regulations for different products

CODE & STANDARDS

PERU

**Ministry
of Energy and Mines**

In charge of approving the norms of electric facilities, with the purpose of safeguarding the security of people, the facilities and the other installations.

It approves the National Code of Electricity – Utilization and DGE's standards.

It regulates the aspects of security of the electric facilities and it mentions the Peruvian Standards.

**Thecnical Regulations related with the security
of the Electric Facilities**

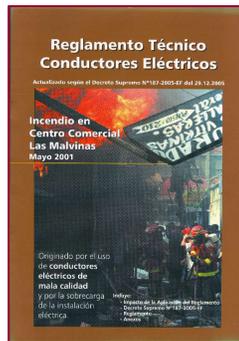

TECHNICAL REGULATIONS & STANDARDS

Peruvian Standards (NTPs)

It is approved by INDECOPI and it is of **voluntary use**.

Currently the Peruvian Standards becomes obligatory by means of a **Technical Regulation** or the **National Code of Electricity - Utilization**.

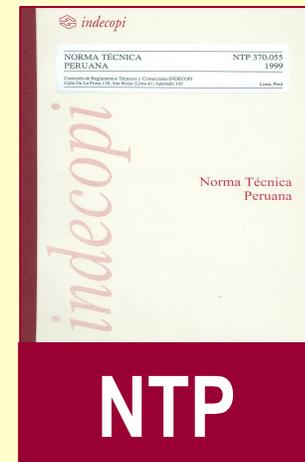

Technical Regulation

Electrical Code

OBLIGATORY

Peruvian Standards

TECHNICAL REGULATIONS

• TECHNICAL REGULATION OF ELECTRIC WIRES and CABLES

Art. 2°.- Obligatory Character

It establishes the requirements and minimum technical specifications that must fulfill the electrical wires and cable

Art. 5° Requirements of labeled Sampling

Of each batch

Determination of the batch

Acceptance of the batch

Art. 7° Conformity assessment

Certificate of conformity

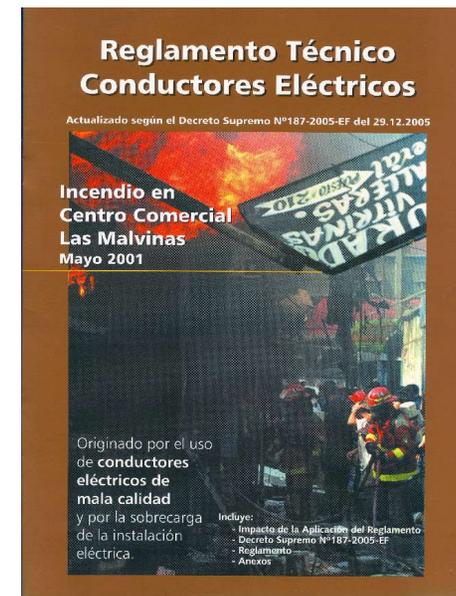

Stamp certificate or Mark of conformity

MINISTERIO DE LA PRODUCCION
PRODUCE

El Peruano **NORMAS LEGALES**

Aprueban Reglamento Técnico sobre Conductores y Cables Eléctricos de consumo masivo y uso general

DECRETO SUPREMO
N° 187-2005-EF

It come into effect on July 1st, 2006

PROYECTO DE TÉCNICAS REGULACIONES

- **PROYECTO DE TÉCNICA REGULACION DE PLUGS AND SOCKET-OUTLETS FOR HOUSEHOLD AND GENERAL USE**

PROYECTO DE REGLAMENTO TÉCNICO PARA ENCHUFES Y TOMACORRIENTES DE USO DOMÉSTICO Y USO GENERAL

Objeto:

Establecer los : **requisitos técnicos y de rotulado,**

Enchufes y tomacorrientes fijos o portátiles

para corriente alterna, con o sin contacto a tierra, bajo tensión nominal mayor que 50 V pero no superior a 250 V y una corriente nominal no mayor a 16 A .

Objetivo legítimo: **la vida y seguridad de las personas e instalaciones**
armonizar la variedad de enchufes y tomacorrientes

CODE & STANDARDS

NATIONAL CODE OF ELECTRICITY - UTILIZATION

GENERAL ORDERS

020-024 Use of Approved Materials and Equipment

The materials and equipment used in electrical installations, must count with approval by the competent Authority, and to be of the kind, type and nominal value that correspond to the specific intention (purpose) for which it must be utilized.

020-026 Rejection of Materials and Equipment

Materials or equipment can be rejected by the competent Authority, if any of the following conditions are verified:

- (a) If the material or the equipment does not count with the approval by the competent Authority, or does not comply with the standards, in what concerns to the sample, over which the approval was granted; or
- (b) If the conditions of use indicate that the material or equipment is not the suitable (adequate) one; or

NATIONAL CODE OF ELECTRICITY - UTILIZATION

Section 080: Protection and Control

080-000 Scope

This Section covers the protection and control for circuits and electrical apparatuses.

Note 1: It must be complied with the corresponding Peruvian Standards:

NORMA TÉCNICA PERUANA	NTP-IEC 60898-1 2004
