一、Abstract 摘要：

The report describes the Purpose, Procedure, and obtained Results of a mission to Hong Kong undertaken on May 24-28, 2010. The main goal of the mission was to participate in the “Fourth International Conference on the History of Science and Technology in Taoism”.

二、Purpose 目的：

The objective of the mission was to participate in the “Fourth International Conference on the History of Science and Technology in Taoism”, to deliver a talk, and to discuss projects of future cooperation with colleagues participating in the Conference.

:

三、Procedure 過程：

The Conference was formally related to the publication of the second volume of the 中國道教科學技術史 edited by 姜生 and 湯偉俠, and included two components: presentations for general audience (from 9 am to 6 pm) and evening sessions (from 8 pm to 11 pm) for more technical presentations and discussions (closed to public). My paper entitled “Transmission or knowledge through Daoist networks: The case of minority nationalities of Northern Vietnam” was delivered during the evening session on May 25 and was well received by the audience (about 20 professors and researchers from Taiwan, Hong Kong, Mainland China, and the USA).

四、心得及建議：

During the Conference I discussed with the organizer, Prof. Jiang Sheng, the plans of future cooperation of the National Tsing Hua University and Shandong University (Jinan) in the field of history of science.

To conclude, the mission to Hong Kong was successful: all the projected objectives were achieved, and new results were obtained.
