報告內容摘要(請以 200 字~300 字說明)			
<p>本次伊拉斯莫斯世界計畫(Erasmus Mundus)地緣政治學(Geopolitics)研究案之研討會在巴黎舉行，為期兩天，由巴黎第八大學(université Paris 8)主辦，經校長指示以國關中心嚴震生主任代表政大赴巴黎參加研討會，除對該 program 相關細節做更深入的了解外，並希望藉此機向其他會員國強調政大的優勢並能爭取到以會員國(full member)身分加入該 program。</p> <p>Upon receiving the instruction from the Office of International Cooperation that the President Wu of NCCU had recommended that I attended the EGEO Seminar, I contacted Barbara Loyer of Paris 8 to make all the necessary arrangements and headed for France even though I have a very tight schedule. In other words, I did not apply or volunteer for such a mission and should not be considered as such with those who apply for financial support from the Top University funding for their research project.</p> <p>The Office of International Cooperation should also notify me that upon accepting such a mission, I need to fill out a report for it. Prior notice of such request should be made known before I depart for France.</p> <p>As to the mission itself, I was honored to represent the university to participate in the discussion of the proposed doctoral program funded by Erasmus Mundus through a consortium of European universities, including representatives from Paris 8 (France), the University of Naples 2 (Italy), the University of Södertörn (Sweden), the Babeş-Bolyai University(Rumania) and National Chengchi University (Taiwan).</p> <p>We joined a presentation of the Paris 8 Ph.D. students on Friday, March 25. All the projects were commented by the professors. The students came from different European countries, including one from Russia and their topics ranging from Bosnia to Northern Ireland, and from Rumania to Russia, all with some relevance to geopolitics. They are the prototype of the proposed joint doctoral program,</p>

indicating the general interests in the subject matter in Europe.

The representatives (including myself) of the partner institutions for the Erasmus met on Saturday and worked for several hours to iron out the proposal which was turned down the year before. I was successful in persuading the representatives to accept NCCU as a full partner in such an endeavor and gave important inputs to the final version of the proposal.

Overall, I was asked by the university to accomplish one important mission, i.e., to have NCCU included in the proposed Erasmus Mundus doctoral program. The mission is completed. Whether the proposal is accepted by Brussels is another matter. We can only keep our fingers crossed.
