

(Proposed) **Development of FMD Roadmap for East Asia**

- Purposes:
1. To progressively achieve FMD freedom; and
 2. To assess national and regional progress towards regional FMD freedom.

Road Map requests to the countries:

1. To develop “National Strategic Plan for FMD Control”:
Definition of National Strategic Plan, Scope, Contents and official approval process of National Strategic Plan depend on the country (Tailor-made to the country context);
2. To set goals and timeline in consistent with the National Strategic Plan:
 - a. The Goals depend on country framework;
 - b. Recommend to propose the targets up to 5 years; and
 - c. To use PCP as a tool to develop and assess the progress of National Strategic Plan.

Process to develop the Roadmap and get endorsed:

- NCP workshop agreed on outline and content of the Roadmap as well as process to get endorsement (August 2012);
- OIE-AP prepares the first draft by the content provided by NCPs, the draft will be electronically circulated to CVOs and NCPs for comments. The comments will also be shared to find common view among members;
- The (revised) first draft will be presented at the First Coordination Committee Meeting (CC Meeting) (November 2012);
- The draft Roadmap will be revised again based on the feedback from CC Meeting;
- Main content of the Roadmap is expected to be approved by CC in 2013; and
- Country information and PCP stage, in the annexes, can be updated each year.

The final version of the Roadmap should be endorsed by August 2016, before the completion of the OIE/JTF project on FMD Control in Asia.
