March 22, 2013

To whom it may concern,

The Ministry of Food and Drug Safety (MFDS) is pleased to invite Ms. Fei, Wen-chi to the 2013 International Symposium on Pesticide Residues and meeting on Future Global Joint Reviews on May 2-3, 2013 consecutively in Osong and Seoul.

The International Symposium on Pesticide Residues features a day of expert discussions on the key and emerging issues of MRLs, minor uses and identifies opportunities for international cooperation and joint reviews. We have been invited speakers for the symposium and ask them to make a presentation on the above topics. And we requested speakers to attend the meeting for future global joint reviews on May 3.

We would like to provide Ms. Fei, Wen-chi with the airfare (Taiwan ↔ Korea), accommodation and meals for 4 days (May 1-4). If we may, we would like to ask your bureau for approval and support.

Having her as a speaker for the symposium would be a great pleasure for us and other attendees. We are looking forward to welcoming her to the 2013 international symposium on Pesticide Residues in Korea.

Sincerely yours,

Chung, Seung

International Symposium on Pesticide Residues

Osong Administration Town, Osong, Korea
May 2, 2013

The 2013 International symposium on Pesticide residues, jointly hosted by the Ministry of Food and Drugs and the Korean Society of Agriculture and Environment, is to identify solutions to the issues on the establishment of maximum residue limits (MRLs), particularly for minor uses, and opportunities for cooperation among national authorities.

This symposium will consist of presentations by experts from various countries on cooperation efforts regarding the establishment of international pesticide MRLs and processes for the establishment of national pesticide MRLs in their own countries. Time will be provided for discussion to exchange information on recent activities regarding minor uses and ways to facilitate global joint reviews.

Objectives

- ▶▶▶ ■ To identify feasible strategies to cooperate on the establishment of international MRLs for pesticide/crop combinations, particularly minor crops.
- To provide a forum for the delegates to the Codex Committee on Pesticide Residues (CCPR) meeting and other interested parties to discuss minor use issues.
- To exchange information on recent cooperation efforts, particularly on joint reviews and residue data generation, and identify new opportunities to participate in joint reviews and other collaborative efforts.

Date

▶▶▶ Thursday, **May 2, 2013**
from 10:00 to 18:00

Venue

▶▶▶ Osong Administration Town
Osong Health Technology Administration Complex,
187 Osongsaengmyeong2(i)-ro,
Osong-eup, Cheongwon-gun, Chungcheongbuk-do,
Korea 363-700

- Presentation Topics** ▶▶▶
- Present MRL setting processes in various countries/regions and recent work sharing/joint review efforts including the use and/or consideration of Codex MRLs.
 - Identify ways to further cooperation among national authorities on the joint review of new pesticide active ingredients and/or minor uses for existing active ingredients.
 - Identify opportunities for cooperation on residue chemistry data generation for minor use and sharing of study results and national reviews.
 - Identify obstacles and possible solutions to further cooperation at the regional and/or international level.

Invited Speakers ▶▶▶ **North America**

United States Lois Rossi, U.S. Environmental Protection Agency

South America

Brazil (Luis Eduardo Pacifici Rangel, Ministry of Agriculture - Invited)
