## Health Alert for EVD (Ebola Virus Disease)

- Special alert for APICTA Award participants who have travelled to West Africa or has family indication of EVD or in contact with EVD health care workers or had direct contact with EVD victims less than 21 days before 30<sup>th</sup> November 2014 please ask medical advise before travel and inform us as soon as possible.
- EVD facts : incubation period, or the time interval from infection to onset of symptoms, is from 2 to 21 days. The patients become contagious once they begin to show symptoms. They are not contagious during the incubation period.
- If between 10<sup>th</sup> November 2014 and travel date to Jakarta you feel sudden onset of fever, intense weakness, muscle pain, headache and sore throat followed by vomiting, diarrhoea, rash, impaired kidney and liver function please see your doctor immediately. When during your stay in Indonesia you feel the symptom as indicated before please contact our medical team immediately for special medical care and treatment
- Ebola virus disease infections can only be confirmed through laboratory testing. Laboratory findings include low white blood cell and platelet counts, and elevated liver enzymes. It spreads over direct contact and human liquid.

## Health Alert for MERS-CoV

- Special alert for APCITA Award participants who have travelled to Arabian Peninsula or in contact with suspected MERS CoV victims less than 14 days before 30<sup>th</sup> November 2014 please ask medical advise before travel and inform us as soon as possible.
- MERS CoV facts : incubation period, or the time interval from infection to onset of symptoms, is from 2 to 14 days. Patients are not contagious during the incubation period. However, when a patient has had MERS-CoV, it has then spread to others who are in close physical contact with the patient.
- Disease spread through air born.
- If between 15<sup>th</sup> November 2014 and travel date to Jakarta you develop severe acute respiratory illness, have fever, cough, and shortness of breath please seek medical help as soon as possible. When during your stay in Indonesia you feel the symptom as indicated before please contact our medical team immediately for special medical care and treatment

**Thank you**
