<b>For Plan 1:</b> Departure at Baotou Airport if you choose visiting pilot plant for microalgae culture of ENN group co., LTD and Xiangsha Bay;	
<b>For Plan 2:</b> Departure at Hohhot Airport if you choose visiting Xilamuren Grassland.	

## Field Trips

Inner Mongolia is most attractive for its grass plain and desert landscapes, and traditional Mongolian cultures. As several professors have request for the grass field visiting, we prepared two post-workshop field trip plans for you to choose.

**Plan 1 (before the microalgae plant visit on July 27):** *Xiang Sha Bay* (响沙湾)-is also known as the “Resonant Sand Gorge” as its dunes make a car-like roaring sound when disturbed, a phenomenon of “singing sand” that nobody can explain. The resort itself looks almost unearthly, like a space ship.

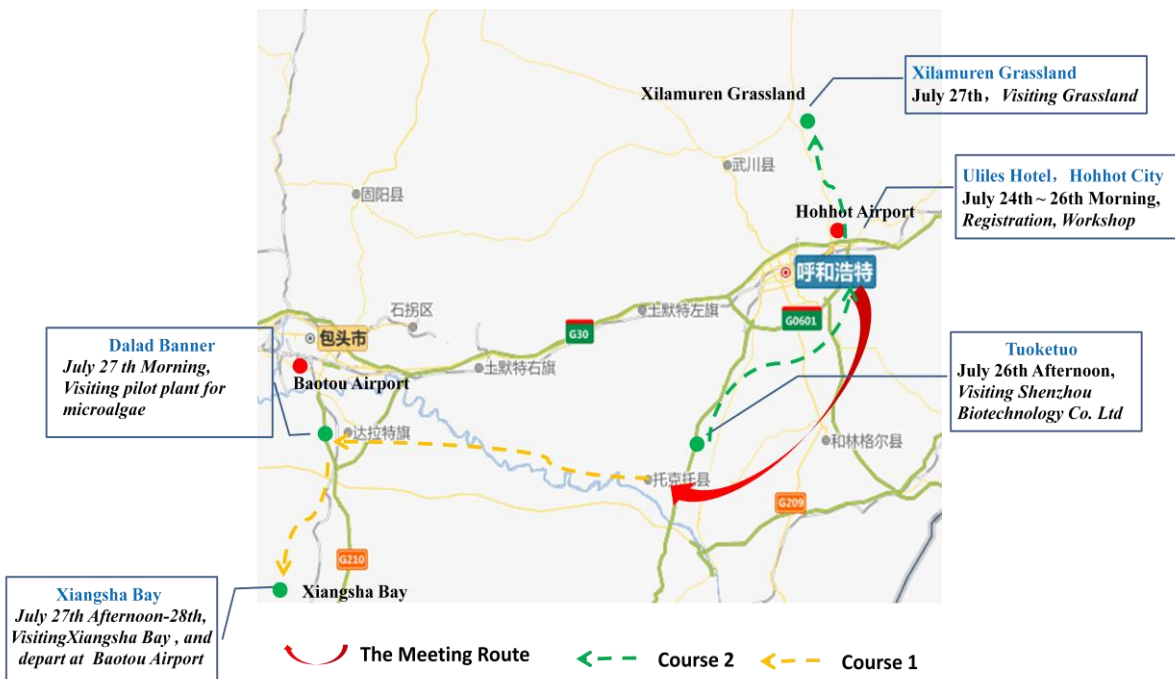

**Plan 2:** *Xilamuren Grassland* (希拉穆仁草原)-The mushroom-like yurts, bright sky, fresh air, rolling grass and the flocks and herds moving like white clouds on the remote grassland, all contribute to make the scenery a very relaxing one.

## Mongolia Dinner

In the afternoon of July 25, 2015, all participants are invited to the traditional Mongolia Dinner to share experience of local life.

### Industry Visit Journey Routes

**Plan 1:** Visiting pilot plant for microalgae culture of ENN group co., LTD and Xiangsha Bay.

**Plan 2:** Visiting Xilamuren Grassland.
