

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Brief Introduction of APFNet Training Programme and It's Five Year's Plan (2016-2020)

-- by APFNet-Kunming Training Center

May 10, 2016

Siem Reap, Cambodia

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

APFNet Thematic Trainings:

- ◆ Part of APFNet's efforts on the human resource development initiated in support of strengthening sustainable forest rehabilitation and management in the Asia-Pacific region.
- ◆ One of APFNet pillars to provide a platform of sharing experience and lessons from SFM in the region.
- ◆ Conducting "two themes":
 - (1) [Forest Resources Management](#);
 - (2) [Forestry and Rural Development](#).

Workshop on Enhancing Forest Governance for Asia and th...

Workshop on Forest Biodiversity Conservation and Improv...

Advanced Workshop on Sustainable Forest Management in

Workshop on Strategies and Approaches for Sustainable F...

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Objectives:

- ◆ In-depth understanding the urgent regional needs and identify the key issues/challenges and future scenarios related to SFM in the Asia-Pacific region, and find some possible solutions to solve these problems.
- ◆ Establish a networking to share best practices of forest rehabilitation and management which are able to be scale up in other regional economies.

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Target Group:

- ◆ The government officials (e.g. policy makers, planners and managers) from developing APFNet member economies across the Asia-Pacific region.
- ◆ Most participants, as senior officials from forestry authorities, nominated by APFNet's National Focal Point.

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Workshop Design and Approach:

- ◆ Keynote Lectures
- ◆ Participant Presentations
- ◆ Group discussions and interaction
- ◆ Field trip study
- ◆ Training workshop evaluation

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Overview of the previous trainings:

- 15 training workshops have conducted from 2009 to 2015;
- Around 233 officials from 20 economics in the region;
- facilitate mutual learning among participants and resource persons, and promote successful practices in the region;
- Highly recognized and appreciated by the participants.

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

APFNet Training workshops (2009-2015)

Year	Training Topics/Themes	No.	Participant

	Biodiversity conservation challenges in the Asia-Pacific: The trans-boundary and livelihood dimensions (Chiang Mai, Thailand).	15	15
Total		15	233

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Economies Involved from the Region

Total of 20 Economies involved in Training Workshops			
Bangladesh	Brunei	Cambodia	Chile
China	Fiji	India	Indonesia
Lao PDR	Malaysia	Mexico	Mongolia
Myanmar	Nepal	Peru	Philippines
PNG	Sri Lanka	Thailand	Vietnam

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

No.	Economy	No. of participants	No.	Economy	No. of participants
1	Bangladesh	13	11	Mexico	2
2	Brunei	10	12	Mongolia	10
3	Cambodia	21	13	Myanmar	17
4	Chile	1	14	Nepal	14
5	China	18	15	Peru	7
6	Fiji	6	16	Philippines	12
7	India	4	17	PNG	9
8	Indonesia	9	18	Sri Lanka	11
9	Lao PDR	18	19	Thailand	21
10	Malaysia	12	20	Viet Nam	18
Total					233

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

APFNet Kunming Training Center (APFNet-KTC)

APFNet-KTC was established on November 2012 at Southwest Forestry University (SWFU) and a field visit base in Puer City, Yunnan Province in Southwest China.

- ◆ 8 training workshops
- ◆ 131 participants from 18 economies

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Training Workshop run by (APFNet-KTC)

APFNet-KTC continually conducted two thematic training workshop during from 2013 to 2015:

- ◆ 7 training workshops;
- ◆ 102 participants from 19 economies.;
- ◆ Started to organize the training workshop in other member economy from 2015 (Chiang Mai, Thailand).

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Five Year's Plan (2016-2020)

Objectives:

Under the guidance of APFNet Strategic Plan 2016-2020:

- ◆ Create a platform in enhancing forest rehabilitation and sustainable forest management, and promoting collaboration among the Asia-Pacific economies;
- ◆ Serve as an outreach for APFNet to communicate and collaborate with other economies;
- ◆ Promote training quality and capability.

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Main Tasks:

- ◆ Serve as training institution of APFNet Secretariat, and fully involve in the organization of thematic training programme.
- ◆ The thematic training themes are fixed to “ **Forest Rehabilitation and Management**” and “**Forestry and Livelihood Development**” from the previous themes.

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

- **Identification of training topic in combination with regional needs**

Carry out training activities in the aspects of policy, technical theory and management mechanism.

- **Improvement of training course design, training approaches and mechanism**

Every Resource Person becomes a Participant, and Every Participant becomes a Resource Person.

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

- **Selection of suitable training venue**

Organize at least 1 training workshop each year in other member economies besides in China (Sri-Lanka in 2016).

- **Standardization of participant nomination and selection process**

Avoid some privilege to select inappropriate participants to attend the course, in order to promote participant's contribution and workshop outputs.

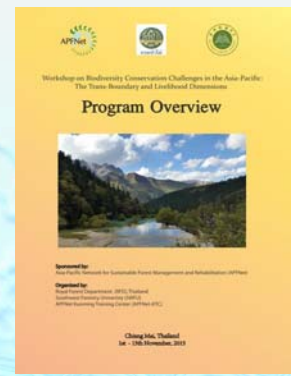

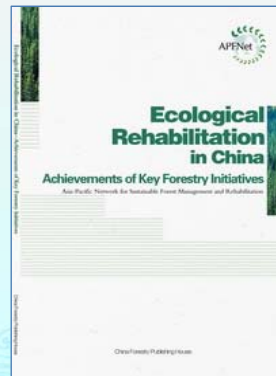

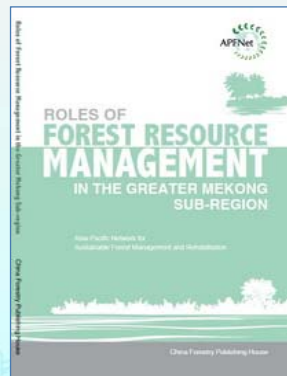

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

- **Others**

- Upgrading the value of training products
- Editing workshop publications
- Establishing Follow-up tracking mechanism of trained participants.

Asia-Pacific Network for Sustainable Forest Management and Rehabilitation

Workshop Date (two weeks/14days):

- The 1st workshop: 5-18 July;
- The 2nd workshop: 1-14 November.

Workshop Session:

- participant arrival and departure: 2 days
- Indoor session: 8 days;
- field study: 4 days.

Workshop Venue:

- China: Kunming City;
- Other economies: TBC (Sri-Lanka in 2016).

ABOUT
