# Energy Working Group (EWG)

SOM Steering Committee on ECOTECH – Committee of the Whole Meeting (SCE-COW)  
5 March 2018, Port Moresby, Papua New Guinea

Agenda Item 6 - Key Fora Deliverables for 2018

Asia-Pacific  
Economic Cooperation

## EWG

Key Forum Deliverables Expected for 2018

- ❑ Publication of best practice guide: 1<sup>st</sup> APEC Low-Carbon Model Town Symposium, APEC Guidelines towards High Biodiesel Blend Diesel Specification, APEC Nearly (Net) Zero Energy Building Roadmap, Roadmap for Achieving Renewable Energy Doubling Goal, Guideline and action plans for improving the solar PV industries toward low carbon society in the APEC region, Refrigerator/Freezer Energy Efficiency Improvement in APEC Region: Review of Experience and Best Practices
- ❑ Portal and database developed: Energy Smart Communities Initiative - Knowledge Sharing Platform (600+ projects)
- ❑ press release recommended: Experience Sharing Workshop on the Five Years Construction of the First Low-Carbon Model Town – Tianjin Yujiapu, China

## EWG

### Cross-Fora Collaboration

- ❑ Hosting joint working group workshops on: green energy finance capacity building (SMEWG), electric vehicle and hydrogen (AD), electromobility: infrastructure and workforce development (TWG & AD), moving towards sustainable, energy efficient urban mobilities (TWG), enhancing regional conformity assessment to ISO 50001 (SCSC); developing the methodology for measuring and realizing the sustainability of cities in the APEC region (FotC on Urbanisation), promoting SMES' integration into regional & global EGS markets (SMEWG)

### Expecting to Seek SOM/AMM Consideration

- ❑ Will seek AMM consideration of APEC Strategy on: APEC Energy Access Initiative, to be finalised in May. Rationale: universal access to electricity and clean fuels
