

Chinese Taipei- Economy Report Highlights

Key Activities - 2017 / 2018

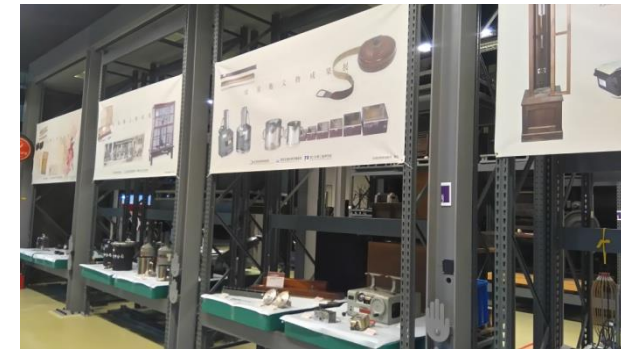

Examinations for Metrological Technical Personnel

- Six examinations were held in 2018, two for Class A and four for Class B metrological technical personnel.

Verification Standards Out of Service in Museum

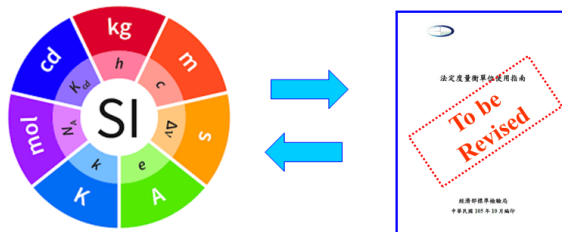

- The Science and Technology Museum receives verification standards which are out of service from the BSMI
- The Science and Technology Museum exhibit those standards so that the public could learn related development of metrology.

Future Focus - 2019 & beyond

Revise the SI Units Promotion Brochure

- At its 25th meeting the CGPM adopted a Resolution on the future revision of the SI units.
- The weights and measures act requires legal units of measurement shall be based on the SI units.
- The BSMI issued a brochure to promote the concept and usage of SI units.
- In the upcoming future, we will revise the brochure according to the revision of SI units.

Verification on Rotary type gas meters

- More and more rotary type gas meters have been used.
- Verification is needed to ensure the accuracy of measurement.
- The verification range for rotary type gas meters will be those with maximum flowrate equal to or less than 100 m³/h.
