# BURKINA FASO, COUNTRY OF THE YEAR

Each year, the economic opportunities of one country are highlighted. Burkina Faso has some major challenges to address:

- Few natural resources
- Vulnerable to climate change
- Very high population growth
- An economy with little diversification and heavily dependent on the primary sector
- A stabilised political situation

**SUPPORT**  
The Ministry of the Environment, the Green Economy and Climate Change & the Mayor of Ouagadougou

Throughout the 4 days of the event, this country is given special high-profile visibility:

1 national pavilion and regional pavilions

1 conference cycle to present the economic opportunities of the environmental and energy issues

1 delegation including representatives of the institutions and of the private sector

15 featured countries since 2002
