報告日期：108 年 6 月 17 日

摘要

ACI 與 ICAO 合辦的 AMPAP (Global ACI-ICAO Airport Management Professional Accreditation Programme) 課程每年皆藉由 ACI 年會舉辦的機會，合併舉辦當年度順利結業的畢業生畢業典禮，在典禮授予畢業證書、講座，及相關的畢業生紀念品(夾克、胸章)，2019 年的 ACI 年會於 4 月 2 日至 4 月 4 日於香港機場亞洲國際博覽館 (AsiaWorld-Summit) 舉辦，累計至本次畢業典禮為止，AMPAP 經過 13 年來的推廣，目前於全世界共有來自 114 個國家，972 位畢業生 (2019 年 6 月 17 日 AMPAP 網站公布資料)。

本次出差除了參加 4 月 4 日的畢業典禮之外，也可以憑畢業生報名資格參加 ACI 年會的展覽以及各場次的座談會，展覽是由各個機場管理單位及設備商展示各項最新的管理技術及產品，藉以了解航空產業的趨勢及新知。而座談會則是劃分各個主題場次，邀請專家與談分享，進行機場管理經驗與新知的交流。本公司除了榮獲機場碳認證計畫 (ACA) 所頒發的碳認證等級三-最佳化成果外，本公司王明德董事長也入選 ACI 理事，未來可望持續加深桃園機場與國際間各類專業交流。

一、目的

桃園機場 2018 年運量已達 4,650 萬人次，國際客運量位於世界第 11 名，在亞洲甚或全世界已是重要的機場之一。近年來桃園機場積極參與 ACI 等各類國際機場專業管理交流機會，約自 2013 年起，便開始從公司選材派訓 AMPAP 課程，迄今全公司已有 15 名結業生取得 IAP（International Airport Professional）資格。

AMPAP 的課程規劃是針對機場管理當局（Airport Authority）的從業人員而設計，主要是讓全世界的機場管理 know-how 有一個共通的專業知識標準，透過知識的提升，促進全世界民航產業的發展，邁向更高的機場服務水準。在課程設計上，修業的學員必須先上完第一門基礎課程-ATS（Air Transport System），完成了 5 天的課堂培訓後，才算是正式地開啟了 AMPAP 的修業課程。

接下來必須要在三年內再完成 3 個必修課程 on-line 課程（透過網路與國外同步上課），每一個課程為期四周（相當於 5 天的課堂培訓）；次外，再從 ACI 和 ICAO 的課程列表中選擇 2 個選修課，每一個選修課程屬於實體上課形式，必須自行尋找開課的地點到國外出差上課。

因為參與這個課程的學生來自世界各國，所以參加這個課程除了可以學習到各種最新的機場管理專業知識外，比較特別之處是，不管線上課程或是實體課程，都可以結識來自各個機場的菁英，共同學習之餘，也可以有很多的經驗交流分享，同時也拓展了很多國外機場的人脈，這也是參加這一個課程一個很好的收穫。

經過三年左右的修習，在繁忙的公務時間之餘，特別撥出時間得以完成 AMPAP 課程，取得 IAP 資格，分外覺得另有一份成就感，本次經主辦單位 ACI 邀請親至香港參加 ACI 年會及 AMPAP 畢業典禮，除了代表參加這個課程取得的成果外，也藉機了解世界機場的管理趨勢、創新設備，及與其他機場代表的面對面交流，此行亦如預期帶回不少收穫及心得。

三、 ACI 年會、展覽、座談

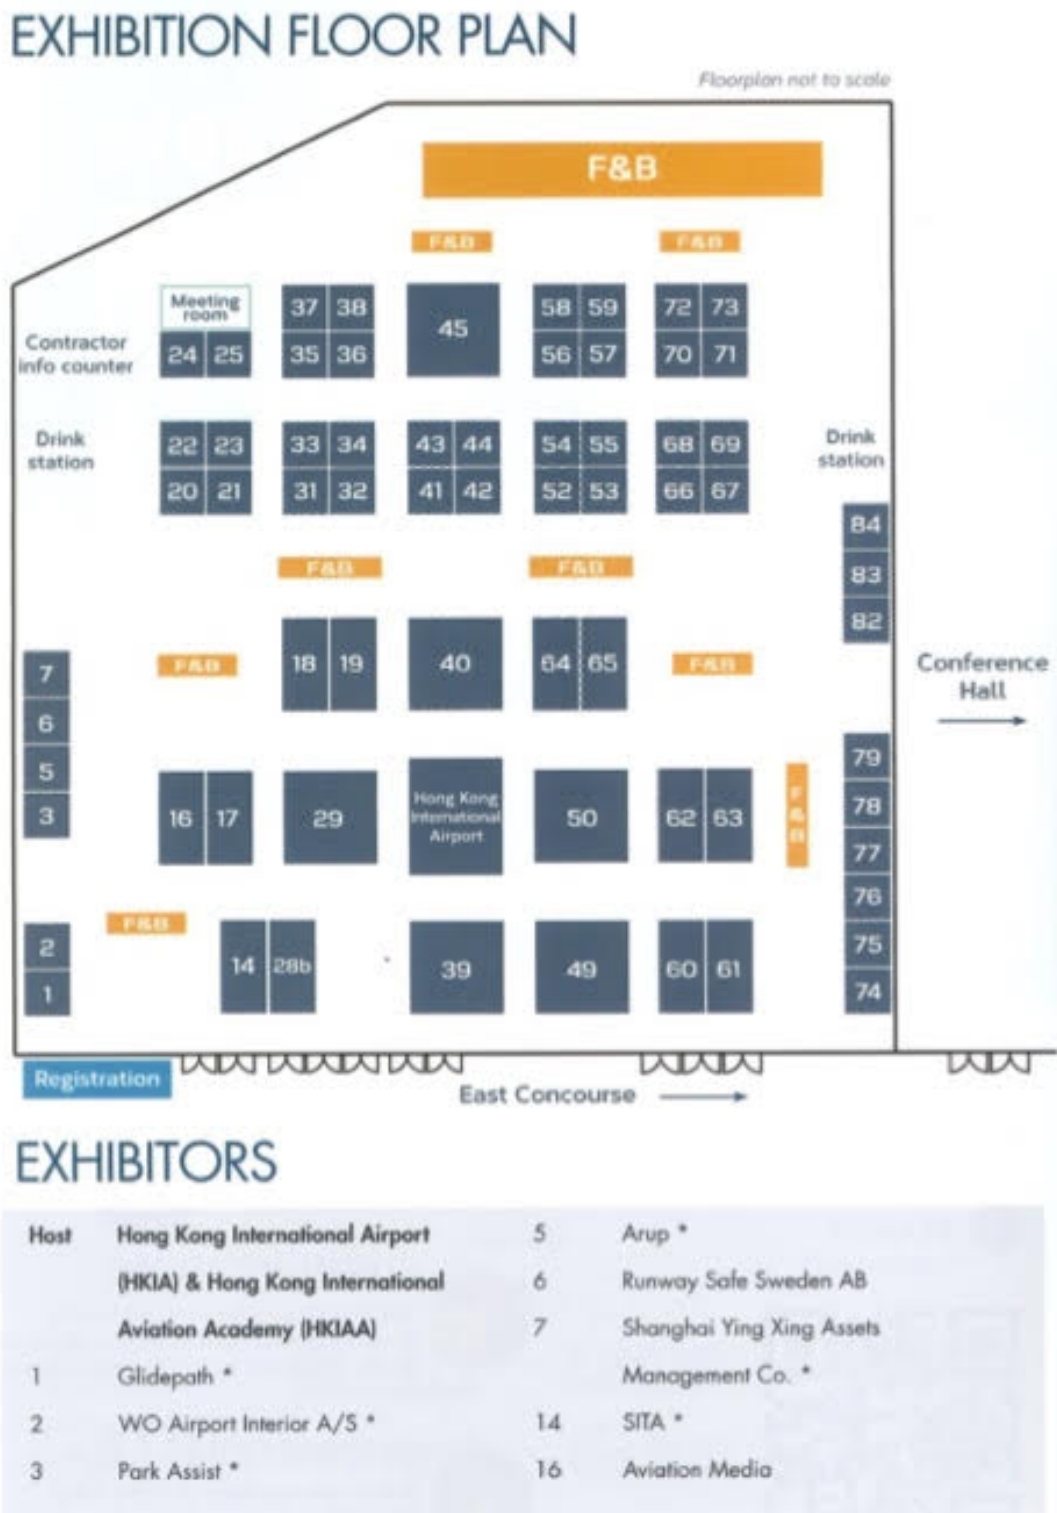

2019 ACI 主辦機場是香港機場，會場地點在鄰近機場的亞洲國際博覽館 (AsiaWorld-Summit)，ACI 年會採每年輪流由各個有意主辦機場爭取的方式決定辦理地點，明年 (2020) 的主辦機場將會是日本的關西機場。

本屆年會會場展覽的部分，贊助廠商計有近 30 家 (圖 1)，各自於會場布置自有的展覽攤位，展示各種應用在機場的新科技、新的設備，現場的攤位超過 60 個 (圖 2)，主辦單位香港機場以及在地環亞貴賓室集團 (Plaza Premium Group) 都是重要的攤位。

圖 1：2019 ACI 年會贊助廠商

圖 2：2019 ACI 年會廠商展覽平面圖

座談會布置在展覽會場旁一個獨立的大型會議室，議程從 4 月 2 日至 4 月 4 日每日 8 點左右安排至 17 點左右，討論議題包含機場發展的趨勢、人力資管理、風險控管、時間帶安排、航空貨運、顧客服務等多元化的與談主題（附件 1），講者來自全世界各國的機場管理專家、航空產業協力廠商等（附件 2），精闢的說明及與談，從中可以獲得不少的機場管理觀念的啟發。

舉例來說，4月3日下午14:30有關顧客體驗的革新（The Customer Experience Revolution）座談場次中，與談人包含環亞貴賓室集團的宋美美總監、阿布達比機場的 Muna Al-Ghanim、雪梨機場的 Claire Donnellan 等服務品質主管等，提出現今世界上旅客已經習慣多元化的服務方式，比如同樣是銀行的服務，有實體的，有線上的，甚至在咖啡店裡也可以提供金融服務，如果要得到顧客青睞，就必須靠出色的服務經驗來取勝。

同樣地顧客看待機場的服務，因為往來不同機場的體驗基礎，標準只會愈來愈高，顧客期待更客製化及超越期待的服務，機場為了回應顧客的期待，當然也必須整合所有提供服務的 stakeholders（例如航空公司、商業廠商等），追求更卓越的服務品質。

四、 AMPAP 畢業典禮

如同 ACI 與 ICAO 於 2007 開始合辦 AMPAP 的目的：Increase Expertise（增進專業）、Establish Uniform Standards（建議一致標準）、Share Expertise（分享專業）及 Promote Professional Excellence（推廣專業）。這個課程的成功之處主要在於分享機場管理的最適方案，然後持續啟發學員成為這個領域的專業人士。

AMPAP 的畢業典禮舉辦在 ACI 年會的第三天，也就是 4 月 4 日的上午，作為今年度 ACI 年會的一個結尾，今年共有 70 位結業生（附件 3），其中只有一位來自台灣，身為台灣唯一一位的結業代表，有幸與來自世界各國的機場管理菁英共聚一堂領取這個機場管理最重要的國際認證-IAP，除了是份榮耀，也多了一份責任，未來必須更加砥礪自己以專業、熱情投注於機場管理的工作，為桃園機場未來的發展及提升，更加奉獻一份心力。

典禮開始的形式是先將各位結業生集結編隊，由主持人逐一唱名上台，從 ACI 理事長、AMPAP 課程負責人手中接過結業證書、結業水晶獎牌，以及象徵 IAP 的胸章及夾克，並在台上逐一拍攝個人結業授證照片（圖 4）及最後的團體照（圖 5）。今年結業生代表致辭是來自印度新德里機場的工程總經理-Om Prakash Chugh，與他曾在馬來西亞的一個實體課程共學，學習精神相當認真負責，值得學習。

圖 4：IAP 團體授證照

結業典禮後由主辦單位安排畢業生餐會，讓所有畢業生有更多交流認識的機會，並期許未來各自在服務的機場裡互相砥礪成長，貢獻所知所能。

五、心得與建議

進入機場服務多年以來，陸續也上過各類機場管理領域的課程，不得不說，AMPAP 是內容最有系統，知識範疇廣度及深度最好的一套專業訓練，航空產業的專業知識取得不易，偏重在機場管理的知識更是稀少，常常我們都只能選擇在做中學，因為沒有最好的參考範例及知識，做得對不對也不清楚。

AMPAP 課程是一個很好的知識傳授及交流平台，結業後 ACI 網站上還有成立一個結業生的社群平台，除可以延續知識交流外，如果樂於分享，甚至可以向 AMPAP 申請擔任課程講師，未來，在桃園機場日趨專業化的發展方向下，建議可以持續選派優秀同仁參加 AMPAP 課程訓練，加大專業知識注入本公司營運管理的程度，讓桃園機場的未來發展更加穩健迅速。

PRE-CONFERENCE PROGRAMME

TUESDAY, 2 APRIL 2019

VENUE: ASIAWORLD-EXPO (AWE) ROOM 201A

09:00-13:00 HR FORUM: DIGITIZATION OF HUMAN RESOURCES: CHALLENGES AND OPPORTUNITIES

In many airports HR is becoming the central unit that coordinates and orchestrates digital transformation. This provides HR professionals with challenges that aren't only limited to talent acquisition and management. HR leaders are heavily involved in organizational tasks, together with a strategic approach to the employee experience span from information architecture to employee well-being.

09:00-10:00 CURRENT TRENDS IN AIRPORT HR

Moderator: Kevin Caron, Director, Capacity Building Programmes, ACI World

Rosa Beckett, Chief Administrative Officer, Jacksonville Aviation Authority, 2019-2020 Chair, ACI-NA Human Resources Committee

Pieter du Plessis, Group Executive Human Resources at Airports Company South Africa and Chair, ACI Africa Human Resources Working Group

Georgia Stergiopoulou, Human Resources Director at Athens International Airport S.A., Chair ACI EUROPE Leadership and Human Resources Forum

Justina Tan, Managing Director, People, Changi Airport Group, and Chair, ACI Asia-Pacific HR Committee

10:00-10:30 USING IT TO DEVELOP AND MEASURE COMPETENCIES

Regardless of the organization size, HR leaders today have a strategic role and responsibility to ensure their organizations are aware of the human side of a crisis and plan ahead to help minimize its effects. To be most effective, HR leaders work collaboratively with top-down commitment to develop enterprise-wide solutions. Learn how HR professionals have been involved in recent crisis events at their respective organizations and ensuring business continuity.

Ali Al Eisi, Learning & Development Senior Manager, Oman Airports

10:30-11:00 DIGITIZATION AND THE RECRUITMENT OF NEW PROFESSIONALS

Airports need to ensure they are prepared for the challenges ahead. Digitalization is changing the way we select airport professionals and open a whole new world of possibilities for success.

Gale LaRoche, Senior Vice President/Chief Human Resources Officer, ADK Consulting & Executive Search

11:00-11:30 COFFEE BREAK, AWE ROOM 201C

11:30-12:15 GROUP EXERCISE ON DIGITIZATION AND HUMAN RESOURCES

Danielle Michel, Director, Membership Services & Events, ACI EUROPE

12:15-12:30 CLOSING REMARKS

Justina Tan, Managing Director, People, Changi Airport Group, and Chair, ACI Asia-Pacific HR Committee

13:00-14:00 LUNCH, AWE ROOM 201C

14:00-16:30 ENVIRONMENT FORUM: RESILIENCE, CLIMATE CHANGE ADAPTATION, AND COMBATTING WILDLIFE TRAFFICKING

14:00-15:00 ASSESSING AIRPORTS RISKS AND WORKING TO BECOME MORE RESILIENT

It is undisputable that airports' infrastructure and operations are not immune to climate change impacts: increase in temperatures have grounded aircraft while more adverse weather events, such as lightning, cyclones, typhons and hurricanes have damaged several airports around the globe and disrupted their operations and business continuity. They can also cause air traffic delays and affect slot management at airports. Moreover, apart from physical damage, there are other financial risks related to climate change for airport operators. Preparedness is key and is cheaper than recovery. This session will focus on adaptation planning, including financial risk-assessments and working with stakeholders to mitigate different associated risks to become more resilient.

Moderator: Wendy Weir, Environment and Sustainability Manager, Brisbane Airport Corporation

Rachel Burbidge, Senior Environment Officer, EUROCONTROL

Chrystelle Damar, Associate Environment Officer, Air Transport Bureau, Environment, ICAO

Adam Davis, Technical Director, Sustainability & Resilience, AECOM

Sebastien Lacoïn, Technical General Manager, Kansai Airports

Caroline Sapriel, Managing Partner, CS&A International

15:00-15:05 LAUNCH: AIRPORT BUSINESS CONTINUITY HANDBOOK AND GUIDANCE ON COMBATTING HUMAN TRAFFICKING

15:05-15:30 COFFEE BREAK, AWE ROOM 201C

15:30-16:30 IDENTIFYING OPPORTUNITIES FOR AIRPORT OPERATORS TO DEVELOP A FRAMEWORK OF ACTION AGAINST WILDLIFE TRAFFICKING

Wildlife trafficking is one of the most lucrative international organized crimes with an estimated worth of about US\$20 billion (ranked top 4 international organized crime after human trafficking). Traffickers have been abusing the fast mobility of the aviation network system to conduct their crimes. ACI has been working to identify opportunities to combat wildlife trafficking and support airports in this endeavour. Devising collaborative ways to share intelligence, facilitate progress, and bring positive long-term behavioral change for both industry stakeholders and passengers are amongst the highest priorities identified. This session will provide a detailed overview of these issues and present solutions to combat this practice.

VENUE: ASIAWORLD-EXPO (AWE) ROOM 201B

09:00-11:00 SLOT WORKSHOP

As of October 2018, 201 Level 3 or slot coordinated airports were listed and 122 Level 2 airports (the lesser congested, schedule-managed airports with some peak congestion). According to International Air Transport Association (IATA) forecasts, there could be 100 more co-ordinated airports in the next 10 years by 2030. As we know, airport congestion leads to delays and a deterioration of the quality of the passenger experience. It can also reduce competition since it is difficult for new carriers to enter an already-full airport. This gives increased market power to incumbent airlines and potentially means higher fares for passengers. This pre-conference workshop will provide background information on the existing IATA worldwide slot guidelines (WSG) and will explore mechanisms by which the implementation of slot allocation processes and rules can optimize the use of airport capacity.

09:00-11:00 OVERVIEW OF CURRENT IATA WORLDWIDE SLOT GUIDELINES

Philippe Villard, Head, Policy and Economics, ACI World

Promoting efficiency in the slot allocation process: the airport perspective

The WSG: The Strategic Review and the remaining challenges:

Gunter Heinrich, Head, Airport Slot Management, Frankfurt Airport

The way forward: Re-think the role of airport operators and the allocation methods:

Conan Kang, Manager, Airport Slot Allocation, ACI World

11:00-11:30 COFFEE BREAK, AWE ROOM 201C

11:30-13:30 THE ECONOMICS OF AIRPORTS – MASTERING THE CRYSTAL BALL WITH ROBUST DATA AND INDICATORS

Airports are complex businesses that operate in unique and evolving physical, financial and regulatory environments. An understanding of market segments based on the evolving tastes and preferences of passengers is also a vital component in capitalizing on the return to customer experience. This session will provide a data-driven summary of the main economic characteristics of the airport industry drawing on ACI's World Airport Traffic Forecasts, the comprehensive battery of Airport Key Performance Indicators and the latest cutting-edge research from the Airport Service Quality (ASQ) programme.

In addition to the latest trends and forecasts in air transport demand across the world's airports, aeronautical and non-aeronautical revenues will be explored over time. Various financial indicators will be presented that paint a picture of an airport's bottom line. Finally, in depth research of the drivers of customer experience will be explored to derive strategic insights aimed at enhancing financial performance and a customer-centric approach to the airport business.

Moderator: Pierre Daems, Chief Executive Officer, Aube Conseil

Dimitri Coll, Director, ASQ, ACI World

Patrick Lucas, Head, Airport Business Analytics, ACI World

14:00-16:30 CARGO FORUM IN PARTNERSHIP WITH

14:00-15:00 HOW TO CREATE WORLD CLASS AIR CARGO HANDLING AT AN AIRPORT

Providing key infrastructure to the industry, airports are the most important centers of air cargo activities. This session will discuss what is needed to create a world class cargo handling infrastructure, but also how quality programs as Cargo Service Quality (CSQ) can contribute to an improved and transparent handling setup.

Moderator: Steven Palmans, Head of Cargo & Logistics, Brussels Airport Company and Vice Chairman, TIACA

Wilson Kwong, Chief Executive Officer, Hong Kong Air Cargo Terminals Limited

Jenny Lam, Chief Executive Officer, Cathay Pacific Services Limited

Alaina Shum, General Manager, Aviation Logistics, Airport Authority of Hong Kong

Steven Verhasselt, Vice President Commercial, Liege Airport

15:00-15:30 COFFEE BREAK, AWE ROOM 201C

15:30-16:30 EMBRACING DIGITIZATION IN AIR CARGO ACTIVITIES

Recent booming of e-commerce, community collaboration and new technologies are transforming the air cargo industry fast. This session will explore some of the opportunities and challenges digitalization may bring and how airports can take advantage of them.

Moderator: Amar More, Director and CEO, Kale Logistics Solutions Private Ltd. / Board Director - TIACA

Ryan Chen, General Manager, Earth Network - Construction Project Center – International Department, Cairiao

Denny Fikri, President, Angkasa Pura Kargo

Ramesh Mamidala, CEO, Celebi Delhi Cargo Terminal Management India Pvt Ltd

10:15-11:15 SESSION 1: LEADERS' FORUM - IT'S ALL ABOUT CAPACITY

Airport passenger traffic has been growing at an average rate of 4.5% during the last decade (from 2007 to 2017) despite a series of macroeconomic shocks and adverse geopolitical events. Considering robust traffic growth, many airports are near, at, or even exceeding their design capacities, causing congestion, higher costs, lower levels of service and frustrated demand. Existing airport infrastructure cannot handle expected growth. This is what the industry refers to as capacity crunch. This session will explore how airport operators will address the infrastructure in order to continue accommodating traffic in the most effective way possible, by looking at financing of additional airport capacity, pricing mechanisms for scarce infrastructure and optimization in the allocation of slots.

Moderator: James Cole, Head of Aviation Transactions and Forecasting, Mott MacDonald

Sheikh Aimen bin Ahmed Al Hosni, Chief Executive Officer, Oman Airports Management Company

12:00-13:00 **SESSION 2: A NEW ERA IN AIRCRAFT OPERATIONS**

Major developments are underway in the fields of commercial space transport (FL600 plus), urban air mobility and drones (below FL10). In addition, the long-heralded revival of supersonics, operating up to FL600, may be on the verge of realization in the next decade. This session will introduce speakers in leading positions to discuss these new developments.

13:15-14:30 **LUNCH (EXHIBITION HALL)**

14:30-15:30 **SESSION 3: THE CUSTOMER EXPERIENCE REVOLUTION**

Everyday, customers live different types of experiences, delivered by different kinds of companies such as banks, online stores, coffee shops, and more. All these interactions shape their overall expectations and their definition of an outstanding experience. Customers have come to expect higher levels of service and a better experience from airports based on their interactions with other service-led industries. Customer experience management is the practice of designing and reacting to customer interactions to meet or exceed customer expectations and, thus, increase their satisfaction, loyalty and advocacy. This session will emphasise how airports are managing the rise of customers' expectations with the collaboration of all their stakeholders and will present case studies from airports participating in ACI's Airport Customer Experience Accreditation pilot.

The future starts now: A transformative approach to creating the airport of the future
International business conditions are on the cusp of radical change and it's clear that the future will not look like the past. However, no one knows exactly what it will look like when technologies such as blockchain, cryptocurrencies and robots, meet macro-changes in demographics, geopolitics and the climate. Dr. Zalman will share how thinking like a futurist can help business leaders plan in uncertain and complex conditions.
- 11:30-12:30** **SESSION 4: THE NEXTT GENERATION**
NEXTT (new experience travel technologies) is a vision for the future of air travel. NEXTT addresses growing capacity issues; the need to maximise the use of infrastructure and become more efficient in processes. Off airport processes, advanced technologies such as robotics and biometrics, and data sharing between all stakeholders are key components. This panel explores future ideas as well as solutions already being tested and implemented and looks at how they will shape the face of air travel.

12:30-13:15	<p>SESSION 5: LIVE INTERVIEW - CONNECTING WITH THE PASSENGER</p> <p>Technology, when deployed effectively, is instrumental in breaking down the silos, which often frustrate customers. The proliferation of airline, airport, store, restaurant and other mobile Apps presents challenges to passengers' travel journey, as they are constantly bombarded with notifications pushed to their mobile devices. Companies must find new, seamless ways to connect with passengers and cut through the noise. This is where new technologies come in. Passengers could plan their trip and filter relevant information, from online check-in, baggage tracking and lounge access to restaurant promos, reservations and shop discounts, through their preferred channel. Potentially, they can choose one platform, be it a social media site, an airport website, or an airline App, through which all stakeholders could communicate directly with them.
