Guide

Title of proposed publication:

Policy paper on liaisons between the OIML and other bodies

Terms of reference of the project, including detailed time frame

The review will be restricted to the update of clause 2, *Regional Metrology Organizations and Regional Legal Metrology Organizations*.

Why should the OIML develop this publication?

Since the development of OIML B 12:2004 *Policy paper on liaisons between the OIML and other bodies*, the RLMO Round Table has become an active part of the work of the OIML. The relationship between the OIML and the RLMOs will be clarified, including the role of the RLMO Round Table in monitoring the relationship.

Participants:

Members of the RLMO RT (TC RLMO)

Proposed development procedure

Being a Basic Publication, the revision of B 12 does not have to follow the procedures established in B 6 for other publications (B 6: Annex D, *CIML Resolution relating to Basic Publications*).

The revision will be carried out by a project group of the RLMO RT participants.

The project group will work within the existing RLMO TC on the OIML website, but the timeline will be decided in the project group.

The rules related to revision periods of the drafts will be agreed on a case by case basis.

The approval in the group will be obtained by consensus of the participants.

Once approved by the project group, the Final Draft will be submitted to the CIML for approval.
