As of May 2022

TEL Strategic Action Plan 2021-2025: Planning and Prioritization

Liberalisation Steering Group (LSG)					
The Liberalisation Steering Group (LSG) works to foster continued market liberalization in the telecommunications/ ICT sector and encourage policy and regulatory environments that promote competition and enable innovation and investment. LSG also includes the Conformity Assessment & Mutual Recognition Agreement Task Force (CA&MRA TF), which aims to ensure the continued successful implementation and use of the MRA for CA and facilitate relevant information exchanges.					
Objectives	Actions	Projects and Initiatives	Status	Cross-fora collaboration	Remarks
1. Promotion of an enabling environment that encourages inclusiveness, innovation and competition.	1.1. Exchange information and best practices on policy and regulatory approaches in the digital sphere towards fostering effective competition and innovation.	Report and Workshop on Network Virtualization, Disaggregated Networks and Open Telecommunications Architecture in APEC – US – 2020-2021	Completed, final report out for endorsement		DSG
		Economic Aspects of the Spectrum Management in the Digital Economy – Russia – 2020-2021	Under implementation		DSG
		Roundtable on Information and Communication Technologies (ICT): Regulations of the Future – Mexico – 2021	Completed, final report will be sent for post TEL64 intersessional endorsement		LSG
	1.2. Exchange information and best practices on the use of telecommunications/ ICT networks and services to support vertical applications.	Report and Workshop on Network Virtualization, Disaggregated Networks and Open Telecommunications Architecture in APEC – US – 2020-2021	Completed, final report out for endorsement		DSG
		Facilitating Innovation and Diversity in Next Generation (5G) Network Ecosystems – Korea – 2020-2021	Completed		DSG; TEL Initiative – COVID-19 and Beyond

Note:

- 2020 projects for reference
- accomplished.
- under implementation.
- planning to implement or suggestion.

ICT Development Steering Group (DSG)					
The Development Steering Group (DSG) is a forum for knowledge sharing and capacity building for deploying telecommunications/ ICT infrastructure, services and applications with the aim of bridging the digital divide, and preparing member economies and societies to benefit sustainably from the Internet and digital economy.					
Objectives	Actions	Projects and Initiatives	Status	Cross-fora collaboration	Remarks
1. Promotion of the deployment of telecommunications/ ICT infrastructure and adoption of emerging digital technologies to support increased access to broadband and ICT services across the APEC region.	1.1. Exchange information and approaches to improve the quality of broadband.	Report and Workshop on Network Virtualization, Disaggregated Networks and Open Telecommunications Architecture in APEC – US – 2020-2021	Completed, final report out for endorsement		TEL Initiative – COVID-19 and Beyond
		Facilitating Innovation and Diversity in Next Generation (5G) Network Ecosystems – Korea – 2020-2021	Completed		TEL Initiative – COVID-19 and Beyond
		Extension of APII Testbed Project – Korea – Multi-year project	Under implementation until 2022		
	1.2. Exchange information and share best practices on the deployment of alternative solutions to provide access to the underserved groups and those in hard-to-reach locations such as satellite, high-altitude balloons, small-cell deployments, and other technologies.	Building a Digital Ready Society – APEC Digital Inclusion Exchange Forum – Singapore and Thailand	Completed, final report out for endorsement		
		Workshop to Learn on Artificial Intelligence (AI) Experiences of the APEC Economies – Peru – 2020-2021	Under implementation	DESG, SMEWG	
		Report and Workshop on Telemedicine in the Asia-Pacific Region: Network, Architecture, Capacity, and Feasibility – China – 2021-2022	Under implementation	HWG	TEL Initiative – COVID-19 and Beyond
